Area of Emphasis Description for Doctor of Musical Arts with an emphasis in Composition

The Doctor of Musical Arts with an emphasis in Composition provides advanced professional training in composition for those outstanding students of composition who are preparing for professional careers, including teaching positions at the university level. The degree allows intensive interaction with the composition faculty and other units within the school. Graduates of this degree conduct research on an original topic that culminates in the writing of a major composition.

Area A: Major Area	(no minimum)	40
Area B: Music History	6	9
Area C: Music Theory	6	9
Area D: Electives	6	12
Area E: Research	9	12
TOTAL		82

Area A: All courses related to the major go in this area, which requires 40 post-baccalaureate hours. This area includes lessons, recitals, conducting projects, ensembles, literature, pedagogy, diction, and techniques. Composition majors must give two degree recitals (one chamber recital and one dissertation reading of performance. Composition majors also must take the two-semester electronic music sequence (MUSI 6130 and MUSI 7730).

Area B: This area is usually satisfied with three courses, at least two of which must be taken at UGA as a doctoral student. MUSI 6290 does not count for this area.

Area C: This area is usually satisfied with three courses, at least two of which must be taken at UGA as a doctoral student. (MUSI 8110 and 8120, which prepare the student for the preliminary exam in music theory, are strongly recommended for this purpose.) MUSI 6150 does not count for this area.

Area D: This area requires 12 hours, at least six of which must be taken as a doctoral student at UGA. It can include work in any area, music or non-music, but the work must be at the graduate level. Questions about the appropriateness of a course as an elective can be adjudicated by the student's advisory committee.

Area E: This area requires a course in research skills (MUSI 6300 or equivalent), plus hours in MUSI 9000 and MUSI 9300. A minimum of three hours in MUSI 9300 is required by the Graduate School.

Area of Emphasis Description for Doctor of Musical Arts with an emphasis in Conducting

The Doctor of Musical Arts with an emphasis in Conducting is a practice-oriented degree. This degree prepares advanced and qualified musicians to become conductors and scholars in their field, with a refined gestural, musical, and leadership skill. This arises from a strong foundation in repertory, knowledge of historical and analytical techniques, effective and efficient rehearsal technique, and a general understanding of style and interpretive choices. Doctoral students in Conducting receive extensive individual attention and have regular opportunities to rehearse and conduct a variety of ensembles—this, indeed, is one of the principal strengths of the program. The final project for this degree comprises 75-90 minutes of conducting in formal concerts with university ensembles. Students must also successfully defend the preparation and performances in a defense which can explore conceptual, organizational, notational, or other matters related to the repertoire performed.

Area of Emphasis Description for Doctor of Musical Arts with an emphasis in Performance

The Doctor of Musical Arts with an emphasis in Performance is a practice-oriented degree. Graduates in this program achieve a professional level of performance, preparing them for careers as performers or for teaching positions at the university level. The program provides extensive faculty and guest artist interaction and opportunities to develop advanced skills in pedagogy. There is rich opportunity to collaborate with music scholars, theorists, composers, educators and other performers. Students must complete a minimum of three public degree recitals demonstrating appropriate levels of technique, musical style, and performance practice. A final capstone project can take the form of either a traditional research paper (dissertation), a lecture recital (with written research component) or a full-length recording project (with written research component).
